Hi Jason!

This is Stefanie, Paul asked me to send you the last 3 years of documented gold sales so here they are! In 2012 we sold to a place called Oxford and they were the only refinery game in anchorage and they charge refining and assaying fees. In 2013 and currently we have been selling to a place that is set up nationwide (worldwide maybe?) called NTR Metals. They do not charge refining and assaying fees but on their invoices they do list drop offs in penny weight so it looks a little different but they are great to deal with!

In 2012, our sold, documented gold total was 1,075 t oz. We also sold 250 oz in cash sales because gold was high that year. We also bought the 330DL.

Total for 2012-- 1325 toz

In 2013, our sold, documented gold total was 741 t oz. We sold as needed to meet expenses and make improvements, such as purchasing the D8T, and held onto 200 t oz since gold was lower at that point. And as I'm sure Paul has told you, we lost almost 30 days of mining due to an abnormally late spring break-up.

Total for 2013--941 t oz

This season (2014) we have sold 471 t oz as of September 15th. We have the excess 300 t oz mined this season (unsold) and another 4-5 weeks of mining (by the grace of mother nature of course!)

Total as of Sept 15th 2014 - 771 t oz

Let me know if anything needs clarification or if I can provide any other documentation. My cell is 907-841-2564 and my email is stefaniemurphyak@yahoo.com

Thank You and Have a Lovely Day!
